1. The Helsinki Declaration on Patient Safety in Anesthesiology: a way forward with the European Board and the European Society of Anesthesiology.

2. Influence of positioning on plain levobupivacaine spinal anesthesia in cesarean section.
Gori F, Corradetti F, Cerotto V, Peduto VA.

4. Scopolamine prevents dreams during general anesthesia.
Toscano A, Pancaro C, Peduto VA.

Gori F, Pasqualucci A, Corradetti F, Milli M, Peduto VA.

Tesoro S, Mezzetti D, Marchesini L, Peduto VA.
7. **Apnea during induction of anesthesia with sevoflurane is related to its mode of administration.**

Pancaro C, Giovannoni S, Toscano A, Peduto VA.  

8. **Sevoflurane analgesia in obstetrics: a pilot study.**

9. **A multicenter survey on anaesthesia practice in Italy.**

Peduto VA, Chevallier P, Casati A; VIMA Group.  

10. **A prospective, randomized, double-blind comparison of epidural levobupivacaine 0.5% with epidural ropivacaine 0.75% for lower limb procedures.**

Peduto VA, Baroncini S, Montanini S, Proietti R, Rosignoli L, Tufano R, Casati A.  

11. **Guidelines for completing the Perioperative Anesthesia Record.**

12. [The mandrake root and the Viennese Dioscorides].
Peduto VA.

13. [Clinical-organizational recommendations for anesthesia in day surgery of the SIAARTI/AAROI Commission on Day Surgery].

14. Sevoflurane provides better recovery than propofol plus fentanyl in anaesthesia for day-care surgery.
Peduto VA, Mezzetti D, Properzi M, Giorgini C.

15. Maintenance of and recovery from anaesthesia in elderly patients. A clinical comparison between sevoflurane and isoflurane.

16. Prospective multicenter studies on sevoflurane. Presentation.
Peduto VA.
Minerva Anestesiol. 1998 Sep;64(9 Suppl 3):1. No abstract available.

17. [Comparison of manual infusion of propofol and target-controlled infusion: effectiveness, safety and acceptability].
Mazzarella B, Melloni C, Montanini S, Novelli GP, Peduto VA, Santandrea E, Vincenti E, Zattoni J.

24. [Removal of a swallowed endotracheal tube in a neonate].
   Peduto VA, Toscano A, Loche F.

25. [An anesthetized anesthesiologist tells his experience of waking up accidentally during the operation].
   Peduto VA, Silvetti L, Piga M.

26. [Midazolam, propofol, and clonidine for sedation and control of autonomic dysfunction in severe
generalized tetanus].
   Peduto VA, Pisanu GM, Piga M.

27. [How to write a scientific paper].
   Peduto VA, Novelli GP.

28. [Plasma levels of atriopeptin and hemodynamics during major vascular surgery: comparison between
isoflurane and propofol+fentanyl].
   Peduto VA, Calamandrei M, Biagiotti S, Boccaccini A, Cardu M.

29. [Systemic poisoning caused by percutaneous absorption of mineral spirit].
   Peduto VA, Toscano A, Marchei M.
30. **Bilateral analgesia and unilateral paresis after lumbar epidural blockade.**
Peduto VA, Tani R, Marinelli L, Pani S.

31. **Emergency management of life-threatening arrhythmias.**
Peduto VA, Cardu M, Piga M.

32. **Biochemical and electrophysiologic evidence that propofol enhances GABAergic transmission in the rat brain.**
Peduto VA, Concas A, Santoro G, Biggio G, Gessa GL.

33. **[Pharmacologic errors in anesthesia].**
Peduto VA.

34. **[Poisoning caused by chronic exposure to volatile anesthetics. Molecular mechanisms and risk anesthetics].**
Peduto VA, Napoleone M.

35. **Accidental subarachnoid injection of pancuronium.**
Peduto VA, Gungui P, Di Martino MR, Napoleone M.
36. **Bilateral extensive skin necrosis of the lower limbs following prolonged epidural blockade.**

Peduto VA, Boero G, Marchi A, Tani R.

37. **[Isoflurane pollution in operating rooms].**

38. **[Acquired immunodeficiency syndrome (AIDS) and anesthesia-resuscitation].**

Conti G, Peduto VA, Ginaldi A, Emmi V.

39. **Liver function following hypovolemic hypotension in rats anaesthetized with halothane or enflurane.**

Masini E, Franconi F, Peduto VA, Pieraccioli E, Matucci R, Novelli GP.

40. **[Anesthesia for outpatient termination of pregnancy: a comparison of anesthetic techniques].**

Barneschi MG, Calamandrei M, Livi P, Marinelli L, Peduto VA.

41. **Accumulation and loss of halothane and enflurane in blood from rats exposed to pollutant concentrations.**

Mari F, Bertol E, Peduto VA, Pieraccioli E, Novelli GP.

42. Stimulation of drug-metabolizing enzymes by nitrous oxide in the rat.
Peduto VA, Masini E, Ludovici M, Pieraccioli E, Dolara P, Novelli GP.

43. Analgesic interaction between nitrous oxide and delta-9-tetrahydrocannabinol in the rat.
Novelli GP, Peduto VA, Bertol E, Mari F, Pieraccioli E.

44. [Effects of nitrous oxide on the female gonad in the rat].
Vannelli G, Scarsella P, Peduto VA, Ghilli L.

45. [Nitrous oxide. Neurological, circulatory and cellular effects].

Novelli GP, Pieraccioli E, Peduto VA, Festimanni F.

47. [Biohumoral aspects of shock. Physiopathological and pathogenetic classification].
Novelli GP, Festimanni F, Peduto VA, Pieraccioli E.
48. [Nitrogen protoxide: effects on spermatogenesis in the rat].
Gremigni D, Peduto VA, Pieraccioli E.

49. [Changes in the rat testis following administration of nitrous oxide].
Gremigni D, Colosi G, Peduto VA.

50. [Ultrastructural changes in rat hepatocytes after prolonged exposure to nonanesthetic doses of halothane and enflurane].
Novelli GP, Bani-Sacchi T, Peduto VA, Pieraccioli E.

51. [Modifications in the contractibility of the isolated rat aorta induced by halothane and enflurane].
Peduto VA, Pieraccioli E, Carbonetto F, Novelli GP.
Minerva Anestesiol. 1975 Sep;41(9):400-6. Italian. No abstract available.

52. [Halothane as a depressor of the alpha adrenergic receptors].
Pieraccioli E, Carbonetto F, Peduto VA.
