WCC 2024: The Thirteenth International Workshop on Coding and Cryptography

The thirteenth in the series biannual workshop Coding and Cryptography will be held from 17 to 21 June 2024 at the University of Perugia in Italy. Our aim is to bring together researchers in all aspects of coding theory, cryptography and related areas, theoretical or applied.

TOPIC HIGHLIGHTS

- Coding theory: error-correcting codes, decoding algorithms, quantum codes, related combinatorial problems;
- Algorithmic and theoretical aspects of cryptography: symmetric cryptography, public-key cryptography, cryptanalysis, quantum cryptography;
- Discrete mathematics and algorithmic tools related to these two areas, such as: Boolean functions, sequences, finite fields, finite geometry, related algebraic systems.

INVITED SPEAKERS

- Christof Beierle, Ruhr-University Bochum
- Eimear Byrne, University College Dublin
- Thomas Debris, Inria Saclay-Île-de-France
- Bart Mennink, Radboud University Nijmegen
- Giacomo Micheli, University of South Florida

June 17-21, 2024
University of Perugia (Italy)
