Performance

Metrics

- First Contentful Paint 1.4 s
- Speed Index 2.4 s
- Time to Interactive 3.1 s
- First Meaningful Paint 1.4 s
- First CPU Idle 2.3 s
- Max Potential First Input Delay 280 ms

Values are estimated and may vary. The performance score is based only on these metrics.

Opportunities — These suggestions can help your page load faster. They don't directly affect the Performance score.

Opportunity | Estimated Savings
--- | ---
Remove unused CSS | 0.45 s
Eliminate render-blocking resources | 0.25 s
Serve images in next-gen formats | 0.15 s

Diagnostics — More information about the performance of your application. These numbers don't directly affect the Performance score.
These checks highlight opportunities to improve the accessibility of your web app. Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

Additional items to manually check (11) — These items address areas which an automated testing tool cannot cover. Learn more in our guide on conducting an accessibility review.

Passed audits (20)

Not applicable (15)
Does not use HTTP/2 for all of its resources — 21 requests not served via HTTP/2

Passed audits (14)

These checks ensure that your page is optimized for search engine results ranking. There are additional factors Lighthouse does not check that may affect your search ranking. Learn more.

Additional items to manually check (1) — Run these additional validators on your site to check additional SEO best practices.

Passed audits (13)
Progressive Web App

These checks validate the aspects of a Progressive Web App. Learn more.

**Fast and reliable**
- Page load is fast enough on mobile networks
- Current page responds with a 200 when offline
- start_url responds with a 200 when offline

**Installable**
- Uses HTTPS
- Registers a service worker that controls page and start_url
- Web app manifest meets the installability requirements

**PWA Optimized**
- Redirects HTTP traffic to HTTPS
- Configured for a custom splash screen
- Sets a theme color for the address bar.
- Content is sized correctly for the viewport
- Has a `<meta name="viewport">` tag with width or initial-scale
- Contains some content when JavaScript is not available
- Provides a valid apple-touch-icon

**Additional items to manually check (3)** — These checks are required by the baseline PWA Checklist but are not automatically checked by Lighthouse. They do not affect your score but it's important that you verify them manually.
