Metrics

- First Contentful Paint: 2.2 s
- Speed Index: 3.3 s
- Time to Interactive: 3.3 s

Opportunities — These suggestions can help your page load faster. They don't directly affect the Performance score.

- Eliminate render-blocking resources: 0.66 s
- Remove unused CSS: 0.45 s
- Properly size images: 0.15 s

Diagnostics — More information about the performance of your application. These numbers don't directly affect the Performance score.

- Ensure text remains visible during webfont load
- Minimize main-thread work — 3.8 s
- Avoid an excessive DOM size — 1,067 elements
- Avoid chaining critical requests — 9 chains found
- Keep request counts low and transfer sizes small — 41 requests • 955 KB

Passed audits (16)
Accessibility

These checks highlight opportunities to improve the accessibility of your web app. Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

Contrast — These are opportunities to improve the legibility of your content.

⚠️ Background and foreground colors do not have a sufficient contrast ratio.

Additional items to manually check (11) — These items address areas which an automated testing tool cannot cover. Learn more in our guide on conducting an accessibility review.

Not applicable (15)

Best Practices

⚠️ Does not use HTTP/2 for all of its resources — 20 requests not served via HTTP/2

Passed audits (14)

SEO

These checks ensure that your page is optimized for search engine results ranking. There are additional factors Lighthouse does not check that may affect your search ranking. Learn more.

Mobile Friendly — Make sure your pages are mobile friendly so users don’t have to pinch or zoom in order to read the content pages. Learn more.

⚠️ Tap targets are not sized appropriately — 99% appropriately sized tap targets
**Additional items to manually check (1)** — Run these additional validators on your site to check additional SEO best practices.

---

**Progressive Web App**

These checks validate the aspects of a Progressive Web App. [Learn more.](#)

---

**Fast and reliable**

- Page load is fast enough on mobile networks
- Current page responds with a 200 when offline
- `start_url` responds with a 200 when offline

---

**Installable**

- Uses HTTPS
- Registers a service worker that controls page and `start_url`
- Web app manifest meets the installability requirements

---

**PWA Optimized**

- Redirects HTTP traffic to HTTPS
- Configured for a custom splash screen
- Sets a theme color for the address bar.
- Content is sized correctly for the viewport
- Has a `<meta name="viewport">` tag with `width` or `initial-scale`
- Contains some content when JavaScript is not available
- Provides a valid `apple-touch-icon`

---

**Additional items to manually check (3)** — These checks are required by the baseline PWA Checklist but are not automatically checked by Lighthouse. They do not affect your score but it's important that you verify them manually.
