

Rights and Science

Acronimo: **Rights and Science**

Call: **H2020-DRS-2015**

Responsabile UNIPG: **Dott. Roberto CIPPITANI**

Abstract: The Jean Monnet Centre of Excellence "Rights and Science", funded by the Education, Audiovisual and Culture Executive Agency (EACEA) of the European Union, is aimed to develop the academic activities related to the legal and societal aspects of Science and Innovation.

These aspects are considered as dimensions of the European integration process, especially in the development of the "European Research Area". Research and Innovation matters also offer opportunities to share and exchange experiences with other countries, especially with Latin America.

The Centre of Excellence "Rights and Science" coordinates the research and teaching activities at the Università degli Studi di Perugia related to other EU projects such as the Jean Monnet Chair "TeKla", the Jean Monnet Chair "SWING", the Jean Monnet Module "EuPlaw", the Horizon 2020 MSC-Rise "BeFOre" (which is led by CNR-ISAFoM).

The Centre of Excellence "Rights and Science" is based on the cooperation of the Università degli Studi di Perugia (the Department of Experimental Medicine, the Department of Economics and Department of Law), with the Consiglio Nazionale delle Ricerche (ISAFoM), and several European and Latin American Universities (in particular: the Tecnológico de Monterrey, Campus de Ciudad de México; the Universidad de Alcalá de Henares, Madrid; the Universidad Autónoma de Baja California; the University of Brighton; the Universidad de Buenos Aires; the Universidad de la Frontera, Chile; the University of Malta; the Universidad del Norte, Colombia, the Technische Universität München; the Escuela Libre de Derecho; the De Montfort University; the Universidad CEU Cardenal Herrera; the Universidad de Valencia; the J.J. Strossmayer University, Osijek).
