University Quality Assurance System

Rev. 0
Date: 18.01.2023

In accordance with its full autonomy as well as with the objectives specified in its Statute, the Università degli Studi di Perugia actively pursues its vision with reference to the quality of its teaching, research and “third mission”, thereby ensuring that all of its departments and courses of study activate the adequate planning, monitoring and self-assessment processes. These are structured to allow prompt detection of potential problems, their subsequent investigation and the resulting adoption of adequate solutions. The University diagram, published on the page <https://www.unipg.it/ateneo/organizzazione/organi-di-gestione-e-controllo/presidio-della-qualita/aq-ateneo> describes the architecture of the quality assurance system by identifying the main responsible actors involved.
