Degrees required for admission

Any Master’s degree (‘Laurea Specialistica’) in accordance with the ministerial decree D.M. 509/1999;
Any Master’s degree (‘Laurea Magistrale’) in accordance with the ministerial decree D.M. 270/2004;
Any University diploma (‘Laurea Vecchio ordinamento’) according to the regulations in place before the ministerial decree D.M. 509/1999 came into force.

Selection procedure

The selection procedure will be carried out as follows:
Evaluation of qualifications and interview (out of a total of sixty: 30 + 30)
Evaluation of qualifications will be performed with regard to the candidate’s university education, further education, training and research experience as well as to any scientific publication (candidates are advised to attach and/or declare all of their qualifications, along with all the elements that can help in their evaluation, thereby including grades obtained within each course).
The evaluation will also include the drafting, by the candidate, of a research project that is to be developed during the three-years on themes pertaining exclusively to one of the PhD course curricula: (http://www.dcbb.unipg.it/biotecnologie)
All qualifications must be presented according to the conditions described in article 3 of the Call for Applications (“Bando”) and in Appendix 2 to avoid non evaluation. The Research project must be submitted together with the application.
The minimum score required in the evaluation of qualifications to access the interview is 15/30. Before the interview, the list of candidates admitted to interview, with scores obtained will be published on the website https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di-ricerca/bandi-avvisi-e-modulistica.
Candidates who do not achieve the above minimum score will not be admitted to the interview.
The interview will focus on the subjects included in the PhD curricula and will also aim at verifying the candidate’s aptitude towards research, his/her availability to spend periods abroad to gain experience as well as his/her scientific interests. For this purpose, during the interview the candidate must be prepared to illustrate the research project he/she has submitted with the application form.
The candidate may choose to be interviewed in English. For interviews held in Italian, the candidate’s knowledge of the English language will also be verified.

The interview will be carried out in videoconference, unless the Commission decides to carry it out in presence, evaluating requests from the candidates to hold the interview in videoconference considering the reasons given.

The passing score for the interview is 21/30.
With regard to the position reserved for graduates in foreign universities, the selection procedure will be conducted in the same way: evaluation of qualifications and interview (out of a total of sixty: 30 + 30); please refer to the above described procedure.

Eligibility is obtained with a total mark equal to or above 36/60.

#### Selection procedure

The selection procedure will be carried out as follows:

**Evaluation of qualifications and interview (out of a total of sixty: 30 + 30)**

**Evaluation of qualifications** will be performed with regard to the candidate’s university education, further education, training and research experience as well as to any scientific publication (candidates are advised to attach and/or declare all of their qualifications, along with all the elements that can help in their evaluation, thereby including grades obtained within each course).

The evaluation will also include the drafting, by the candidate, of a research project that is to be developed during the three-years on themes pertaining exclusively to one of the PhD course curricula: (SC 12/A1 – SSD IUS/01; SC 12/B1 – SSD IUS/04; SC 12/E3 - SSD IUS/05; SC 13/B1 – SSD SECS-P/07; SC 12/G2 – SSD IUS/16); **this Research project must be submitted together with the application**.

All qualifications must be presented according to the conditions described in article 3 of the Call for Applications (“Bando”) and in Appendix 2 to avoid non evaluation.
The minimum score required in the evaluation of qualifications to be admitted to the interview is **15/30**. Before the interview, the list of candidates admitted to interview, with scores obtained will be published on the website [https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di-ricerca/bandi-avvisi-e-modulistica](https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di-ricerca/bandi-avvisi-e-modulistica), as well as on the website of the Department of Economics on [https://www.econ.unipg.it/dottorati-di-ricerca](https://www.econ.unipg.it/dottorati-di-ricerca). Candidates who do not achieve the above minimum score will not be admitted to the interview.

The interview will regard subject matter pertaining to the PhD Curriculum (SC 12/A1 – SSD IUS/01; SC 12/B1 – SSD IUS/04; SC 12/E3 - SSD IUS/05; SC 13/B1 – SSD SECS-P/07; SC 12/G2 – SSD IUS/16) and will also aim at verifying the candidate’s aptitude towards research, his/her availability to spend periods abroad to gain experience as well as his/her scientific interests. For this purpose, during the interview the candidate must be prepared to illustrate the research project he/she has presented together with the application form for the evaluation of academic titles.

The candidate may choose to be interviewed in Italian, Spanish or English, indicating his/her choice in the application form.

For interviews held in Italian there will also be a verification of the candidate’s knowledge of the English or the Spanish language.

The interview will be carried out in videoconference, unless the Commission decides to carry it out in presence, evaluating requests from the candidates to hold the interview in videoconference considering the reasons given.

The passing score for the interview is **21/30**.

With regard to the position reserved for graduates in foreign universities, the selection procedure will be held the same way: **evaluation of qualifications (including the research project) and interview (out of a total of sixty: 30 + 30)**; please refer to the above described procedures.

Any University diploma (‘Laurea Vecchio ordinamento’) according to the regulations in place before the ministerial decree D.M. 509/1999 came into force.

**Selection procedure**

The selection procedure will be carried out as follows:
Evaluation of qualifications and interview (out of a total of sixty: 30 + 30).

**Evaluation of qualifications** will be performed with regard to the candidate’s university education, further education, training and research experience as well as to any scientific publication (candidates are advised to attach and/or declare all of their qualifications, along with all the elements that can help in their evaluation, thereby including grades obtained within each course).

The evaluation will also include the drafting, by the candidate, of a research project that is to be developed within the three-years on themes pertaining to the PhD course, and to its objectives.

The passing score for the interview is **10/30**.

Before the interview, the list of candidates admitted to interview, with scores obtained will be published on the website [https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di-ricerca/bandi-avvisi-e-modulistica](https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di-ricerca/bandi-avvisi-e-modulistica)

Candidates who do not achieve the above minimum score will not be admitted to the interview.

All qualifications must be presented according to the conditions described in article 3 of the Call for Applications (“Bando”) and in Appendix 2 to avoid non evaluation; the research project must be presented together with the application to participate in the selection.

The interview will focus on the subjects pertaining to the PhD course and its objectives and will also aim at verifying the candidate’s aptitude towards research, his/her availability to spend periods abroad to gain experience as well as his/her scientific interests. For this purpose, during the interview the candidate must be prepared to illustrate the research project he/she presented with the application (form). The candidate may choose to be interviewed in English. For interviews held in Italian there will also be verification of the candidate’s knowledge of the English language.

The interview will be carried out in person. The Commission will evaluate the requests of the candidates to carry out the interview by videoconference considering the reasons given.

The passing score for the interview is **20/30**.

**With regard to the position reserved for graduates in foreign universities**, the selection procedure will be carried out following the above-mentioned modality: Evaluation of qualifications and interview (out of a total of sixty: 30 + 30); please refer to the above-mentioned procedure.

**Eligibility is obtained with a total mark equal to or above 30/60.**

**Examination date:**

Please be reminded that, as per art. 4 of the Call, on the 17th of June 2022 a notice will be posted on the University webpage [https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di-ricerca/bandi-avvisi-e-modulistica](https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di-ricerca/bandi-avvisi-e-modulistica) and on the University online bulletin board, which will communicate the procedures, dates and hours of the convocation, and any other information concerning the present selection. Such notice shall have the value of a formal convocation and personal communications in this regard will not be sent. All candidates for this doctoral course are, therefore, strongly advised to check the notice of the 17th of June 2022.

Degrees required for admission

Any Master’s degree (‘Laurea Specialistica’) in accordance with the ministerial decree D.M. 509/1999, Any Master’s degree (‘Laurea Magistrale’) in accordance with the ministerial decree D.M. 270/2004, Any University diploma (‘Laurea Vecchio ordinamento’) obtained in accordance with regulations in place before the ministerial decree D.M. 509/1999 came into force.

Selection procedure

The selection procedure will be carried out as follows:

Evaluation of qualifications and interview (out of a total of sixty: 30 + 30)
Evaluation of qualifications will be performed with regard to the candidate’s university education, training and research experience as well as to any scientific publication (candidates are advised to attach and/or declare all of their qualifications, along with all the elements that can help in their evaluation, thereby including grades obtained within each course). The evaluation will also concern the elaboration on the part of the candidates of research project to be developed on one of the themes of the doctoral curricula, to be written in English.

All qualifications must be presented according to the conditions described in article 3 of the Call for Applications (“Bando”) and in Appendix 2 to avoid non evaluation.

**The Research project must be submitted together with the application.**

The interview will focus on the subjects included in the PhD curricula and will aim at verifying the candidate’s aptitude towards research, his/her availability to spend periods abroad to gain experience and his/her scientific interests. For this purpose, during the interview the candidate must be prepared to illustrate the research project he/she has presented, in English, together with the application for the evaluation of his/her qualifications. The candidate may choose to be interviewed in English. For interviews held in Italian, the candidate’s knowledge of the English language will also be verified.

The interview will be carried out in videoconference, unless the Commission decides to carry it out in presence, evaluating requests from the candidates to hold the interview in videoconference considering the reasons given.

The passing score for the interview is 21/30.

**With regard to the position reserved for graduates in foreign universities,** the selection procedure will be conducted in the same way: evaluation of qualifications and interview (out of a total of sixty: 30 + 30); please refer to the above described procedure.

**Eligibility is obtained by candidates with a total mark equal to or above 30/60.**

**Examination date:**

Please be reminded that, as per art. 4 of the Call, on the 17th of June 2022 a notice will be posted on the University webpage [https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di ricerca/bandi-avvisi-e-modulistica](https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di ricerca/bandi-avvisi-e-modulistica) and on the University online bulletin board, which will communicate the procedures, dates and hours of the convocation, and any other information concerning the present selection. **Such notice shall have the value of a formal convocation and personal communications in this regard will not be sent.** All candidates for this doctoral course are, therefore, strongly advised to check the notice of the 17th of June 2022.

Any University diploma (‘Laurea Vecchio ordinamento’) according to the regulations in place before the ministerial decree D.M. 509/1999 came into force.

**Selection procedure**

The selection procedure will be carried out as follows:

**Evaluation of qualifications and interview (out of a total of sixty: 30 + 30)**

**Evaluation of qualifications** will be performed with regard to the candidate’s university education, further education, training and research experience as well as to any scientific publication (candidates are advised to attach and/or declare all of their qualifications, along with all the elements that can help in their evaluation, thereby including grades obtained within each course).

The evaluation will also concern the drafting on the part of the candidates of a research project on one of the topics of the doctoral curricula to be developed over the course of the three years.

**This Research Project** should cover one of the following subjects, pertinent to the PhD curriculum:

With regard to the **“Sustainable production systems and environment” (Sistemi produttivi sostenibili e ambiente) curriculum:**

a) Technologies for a sustainable management of water resources in agriculture; Tecnologie per la gestione sostenibile della risorsa idrica in agricoltura.

b) Molecular approaches to overcome reproductive barriers and/or find markers linked to resistance genes with the aim of improving crops; Approcci molecolari per migliorare la performance delle piante agrarie attraverso il superamento delle barriere riproduttive e/o l’individuazione di marcatori associati a resistenze.

c) Win the challenge against the Tomato Brown Rugose Fruit Virus (ToBRFV); Vincere la sfida contro il Tomato Brown Rugose Fruit Virus (ToBRFV);

d) Evaluation of ground-based photovoltaic systems for beekeeping integration and wild pollinator protection; Valutazione di sistemi fotovoltaici a terra per l’integrazione dell’apicoltura e la tutela degli impollinatori selvatici.

e) Plants for future: study of the morphological and histo-anatomical traits to obtain species resilient to global changes; Piante per il futuro: studio degli adattamenti morfologici e isto-anatomici finalizzati allo sviluppo di specie resilienti ai cambiamenti climatici.

With regard to the **“Agrofood and animal production” (Produzioni Agroalimentari e Zootecniche) curriculum:**
a) Transcriptomic approaches for the study of stress tolerance in crop plants. Transcrittomica per lo studio della tolleranza agli stress nelle piante agrarie.

b) Multiple summer stresses: physiology and biosolution in Vitis vinifera L; Stress multipli estivi: fisiologia e biosolution in Vitis vinifera L.

c) Irrigation management in hazelnut cultivation for the rational use of water resources; Gestione dell’irrigazione in coltivazione per la razionale utilizzazione della risorsa idrica.

d) Development of digital decision support systems for application of biological control methods in integrated pest management; Sviluppo di sistemi digitali di supporto alle decisioni per l’applicazione di metodi di controllo biologico nella difesa integrata delle colture.

e) Sustainable beef cattle production: the contribute of the genomic selection; Allevamento bovino da carne sostenibile: il contributo della selezione genomica.

f) Modulation of gene expression as a response to heat stress in cold-adapted yeasts as a model for studying the ability of eukaryotes to adapt to climate change; Modulazione dell’espressione genica come risposta allo stress termico nei lieviti adattati al freddo quale modello per lo studio della capacità degli eucarioti di adattarsi al cambiamento climatico.

The Research project, drawn up either in Italian or in English on one of the subjects that are pertinent to the PhD program, as better specified above, must be submitted together with the application. The project must include the following: candidate’s first and last name; title of the project; abstract (max 200 words); state of the art (max 1500 words); research objectives and expected results in the three-year period (max 1000 words); methodological approach (max 800 words); bibliographic references. All qualifications must be presented according to the conditions described in article 3 of the Call for Applications (“Bando”) and in Appendix 2 to avoid non evaluation.

Minimum mark required on evaluation of qualifications in order to be admitted to the interview is 15/30. Before the interview, the list of candidates admitted to the interview, indicating the marks obtained on qualifications evaluation, will be posted online on the website https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di-ricerca/bandi-avvisi-e-modulistica.

Candidates who do not achieve the minimum score on qualifications evaluation will not be admitted to the interview.

The interview will focus on themes regarding the subjects included in the PhD curricula and in particular those aspects prepared by the candidate for his/her research project, the candidate's aptitude towards research, his/her availability to engage in periods abroad, as well as his/her scientific interests. For this purpose, during the interview the candidate must be prepared to illustrate the research project he/she presented with the application (form). The candidate may choose to be interviewed in English. For interviews held in Italian, the candidate’s knowledge of the English language will also be verified.

The interview will be carried out in videoconference, unless the Commission decides to carry it out in presence, evaluating at its discretion requests from the candidates to hold the interview in videoconference considering the reasons given.

The passing score for the interview is 21/30.

With regard to the position reserved for graduates in foreign universities, the selection procedure will be carried out following the above-mentioned modality: Evaluation of qualifications and interview (out of a total of sixty: 30 + 30); please refer to the above-mentioned procedure.

Eligibility is obtained with a total mark equal to or above 36/60.
Examination date:

Please be reminded that, as per art. 4 of the Call, on the 17th of June 2022 a notice will be posted on the University webpage https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di ricerca/bandi-avvisi-e-modulistica and on the University online bulletin board, which will communicate the procedures, dates and hours of the convocation, and any other information concerning the present selection. Such notice shall have the value of a formal convocation and personal communications in this regard will not be sent. Degrees required for admission

Any University diploma (‘Laurea Vecchio ordinamento’) obtained in accordance with regulations in place before the ministerial decree D.M. 509/1999 came into force, deemed equivalent to the Master’s degrees (‘Laurea Specialistica’ or ‘Laurea Magistrale’) above indicated, in accordance with the current regulations on equivalency of qualifications for the purpose of participation in public calls for Applications.

Selection procedure

The selection procedure will be carried out as follows:

Evaluation of qualifications and interview (out of a total of sixty: 30 + 30).

Evaluation of qualifications will be performed with regard to the candidate’s university education, further education, training and research experience as well as to any scientific publication (candidates are advised to attach and/or declare all of their qualifications, along with all the elements that can help in their evaluation, thereby including grades obtained within each course).

All qualifications must be presented according to the conditions described in article 3 of the Call for Applications (“Bando”) and in Appendix 2 to avoid non evaluation.

The evaluation will also include the drafting, by the candidate, of a research project that is to be developed during the three-year course on themes pertaining to the PhD course curricula; the research project must be submitted together with the application.

The interview will concern one of the following themes, chosen by the candidate:

Theme 1:

Titolo in Italiano: Metodi ed approcci nelle fasi iniziali di progettazione di farmaci.
Titolo in Inglese: Methods and approaches in early phase drug discovery.

Theme 2:

Titolo in Italiano: Metodi ed approcci nella tecnologia farmaceutica e nutraceutica alimentare.
Titolo in Inglese: Methods and approaches in pharmaceutical technology and food nutraceuticals.
The interview will aim at verifying the candidate’s aptitude towards research and his/her availability to carry out periods of research experience abroad. For this purpose, during the interview the candidate must be prepared to illustrate the research project he/she submitted with the application. The candidate may choose to be interviewed in English. For interviews held in Italian, the candidate’s knowledge of the English language will also be verified.

The interview will be carried out in videoconference, unless the Commission decides to carry it out in presence, evaluating requests from the candidates to hold the interview in videoconference considering the reasons given.

The passing score for the interview is 18/30.

With regard to the position reserved for graduates in foreign universities, the selection procedure will be conducted in the same way: evaluation of qualifications and interview (out of a total of sixty: 30 + 30); please refer to the above described procedure.

Eligibility is obtained with a total mark equal to or above 36/60.

Examination date:

Please be reminded that, as per art. 4 of the Call, on the 17th of June 2022 a notice will be posted on the University webpage https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di-ricerca/bandi-avvisi-e-modulistica and on the University online bulletin board, which will communicate the procedures, dates and hours of the convocation, and any other information concerning the present selection. Such notice shall have the value of a formal convocation and personal communications in this regard will not be sent. All candidates for this doctoral course are, therefore, strongly advised to check the notice of the 17th of June 2022.

- themes concerning **LEGAL PROTECTION OF SUBJECTIVE LEGAL SITUATIONS:**
  1) Subjective legal situations and fundamental rights and criminal law protection;
  2) Civil trial and A.D.R. ;
  3) Administrative procedure and trial.

During evaluation, particular merit will be given to projects that aim to satisfy the UN Sustainable Development Agenda 2030 with regard to objectives for gender parity, inequality reduction, sustainable cities and communities, Peace, Justice and healthy institutions.

All qualifications must be submitted according to the conditions described in article 3 of the Call for Applications (“Bando”) and in Appendix 2 to avoid non evaluation.

The minimum score required in the evaluation of qualifications to be admitted to written test is 18/30.

Before the written test takes place, the list of candidates with the indication of scores obtained in the evaluation of qualifications, will be published on the website https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di-ricerca/bandi-avvisi-e-modulistica.

Candidates who do not meet the above minimum score requirement in qualifications evaluation will not be admitted to the successive written test.

**The written test** will regard subject matter pertaining to the curricula the PhD is composed of, and will take place in presence in a classroom of the Department of Law.

The minimum score for passing the written test is 18/30.

Candidates who do not meet the above minimum score requirement in written test will not be admitted to the successive interview.
Before the interview, the list of candidates with the indication of scores obtained in the evaluation of qualifications, will be published on the website https://www.unipg.it/didattica/percorsi-post-laurea/dottorati-di-ricerca/bandi-avvisi-e-modulistica.

The interview will be carried out in videoconference, unless the Commission decides to carry it out in presence, evaluating requests from the candidates to hold the interview in videoconference considering the reasons given.

The interview will regard subject matter pertaining to the curricula the PhD is composed of, and, more specifically the aforementioned curricula macro themes (see above) already chosen as subjects for the research project. The interview will also aim at verifying the candidate’s aptitude towards research, his/her availability to spend periods abroad to gain experience as well as his/her scientific interests. Please note that the discussion of the Research Project proposal presented, for the evaluation of the candidate’s qualifications, together with the application, will be considered as an integral part of the interview.

The candidate may choose to be interviewed in English. For interviews held in Italian the candidate’s knowledge of one among the following foreign languages will be tested: English, French, German.

The passing score for the interview is 18/30.

Eligibility is obtained with a total mark equal to or above 54/90
