Starting from the second year, each enrolled PhD student is granted, in addition to the scholarship, extra funds for research activity (limited to the approved financial resources), both in Italy and abroad; these funds are additional to the scholarship, and the amount is determined for each program for a total of 10% of the gross yearly amount of the organization, except for financial additions to be made on the allotted operational funds within the administrative department hosting the program.

The Doctoral program scholarship is taxable for social security contributions according to the regulations of "INPS a gestione separata" as per art. 2, comma 26, of Law 8 August 1995, no.335 and subsequent modifications and integrations, in the following percentages: two-thirds to be paid by the administration and one third by the student.

Scholarships funded by other universities or public entities can be limited to specific research areas. The scholarships which fall within this category will obligate the student to focus on these areas in compliance with the conditions of the agreement. The Board of Professors will be in charge of verifying that these conditions are met.

For the Research Doctoral Programs established and activated in virtue of cooperation agreements with other prestigious, highly-qualified and internationally renowned universities and foreign research entities as per art. 10 of D.M. 45/2013, the norms relating to the scholarships will be defined in the aforementioned agreements.

The norms in the present Call are not applicable to foreign students or beneficiaries of financial aid in specific mobility programs for which there exist specific regulations.

The scholarships for Doctoral Programs cannot be received in conjunction with other scholarships granted for any reason, with the exception of those granted by national or foreign institutions for the purpose to complete, by means of periods spent abroad, the recipients' research and study activities.

Those who have already been recipients of a scholarship, even if only partially, to attend another doctoral program at any other Italian University cannot be granted another.

## Art.8

### Fees to access and attend the program

The doctoral students who are not recipients of a scholarship must pay a fee in order to attend the program, in the amount established each year by the Board of Governors after having received the Academic Senate's counsel. The same fee is to be paid also by students who are Research Grants recipients.

The doctoral students who are recipients of a scholarship and have either lost the right to the scholarship or have renounced for whatever reason, will be exempted from the payment of the aforementioned fees.

The annual fee to attend the program is established on the basis of income as defined in D.R. no. 1365 issued on 24/07/2015, as follows:
